WHY THE FAMILY IS IN NEED:

This family has been involved with the Department of Children and Families since January 2019, when the three children were removed from mother's care due to mother struggling with untreated mental health. The children were reunified home with their mother in June 2019 and have been successful in this transition. The mother has advocated for the help of the Department on numerous occasions when she is struggling with the children or feels that more services would be beneficial to the family. However, mother was out of a job from January – July while working towards getting her children back.
