

Worker Name: Tanner Lowe (The Iris B Family)

**WHY THE FAMILY IS IN NEED:**

The family consists of twin boys who were placed in separate foster homes for approximately 2 years. The boys' grandmother wanted them to live with her but she did not have the physical space as she was living in a one bedroom apartment. However, in July 2019, the grandmother secured a 3 bedroom apartment and the boys began having visits with her at her new apartment. One of the boys moved in with the grandmother in October and the other boy moved in a few weeks later. The grandmother works full time to provide for the boys and does not have much money at all. The grandmother is going to adopt the boys and wants them to have everything they want and especially wants the boys to have a great first Christmas because it will be their first Christmas living with her. The grandmother had been extremely cooperative with DCF and does an excellent job taking care of the boys.
