SEPTEMBER 20th: WELCOME TO THE HIGH SCHOOL

We'll discuss ideas for successful strategies that you and your student can implement to ensure that this new school year starts off with positive steps. This truly is a "can't miss" for anyone who wants to learn more about the nuts and bolts of how the high school operates.

DECEMBER 13th: PREPARING FOR MID-YEAR EXAMS * time change- this program will begin at 9:00 am.**

Year in and year out, this month's offering is typically "BWG's" most popular offering. Help your child maximize the time that they spend studying for mid-term exams by discussing some study suggestions and tips with the counselors and teachers. Representatives from each academic department will stop by and offer their particular insight.

FEBRUARY 7th: SAT/ACT: TESTING OPTIONS

Standardized testing and the role that it plays in the college admissions process has always been a source of passionate discussion. At this presentation, the counselors will discuss not only the make up of both tests but the role that they play in the college process. The topic of standardized testing will most assuredly provide interesting debate points.
